

الشركة السعودية للمصادرات الصناعية  
Saudi Industrial Export Company

## SIEC Profile

We intend to be one of the leading supply chain & international trade solutions' provider in the world.

# CEO MESSAGE

We are now an organization that embarks on a new endeavor to reshape our operations and becomes a major contributor to Saudi Arabia's 2030 Vision of National Transformation.

We Aim to promote global stability, growth, and prosperity through International Supply Chain & Trade Solutions.

As such, this will be accomplished by achieving governmental operational excellence, supporting digital transformation, enabling the private sector, developing economic partnerships, and promoting social development, in addition to ensuring the sustainability of vital resource

We are targeting to expand our activities & portfolio of commodities to become an integrated industry driver for the global economy.

Our main emphasis is that SIEC, as a Saudi Public Listed Company, will facilitate to its clients a total Trading Solution Platform for both suppliers and buyers, locally & internationally, through utilizing our global presence and innovative technology as a fundamental base to build integrated tools for our clients to support their growth and wellbeing

**DR. SULAIMAN AL JEDAIE**

Chief Executive Officer

## About us

Our purpose is focused: comprehensive supply chains, trading finance, and IT solutions for trade. Since its inception in 1990 as Limited Liability Company and in 2006 as a public list company in the main market (TASI) in Saudi Stock Market (TADAWUL), SIEC has come a long way in translating its original vision set by its founders to become the No.1 Supply Chain & Trade Solutions provider in the Middle East and African Regions.

Headquartered in Riyadh , KSA, and a regional office in Dubai, UAE.

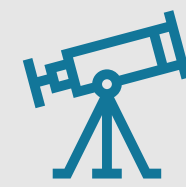

Furthermore, SIEC has adopted the latest technologies through an effective and sustainable growth strategy. SIEC is adopting cutting-edge changes to its processes and procedures to keep up with digital technology's growing capabilities and availability.

SIEC technologies accelerate the process, beginning with the first inquiry and continuing through the final payment and delivery. This is accomplished by streamlining decision-making and improving communication, performance, and monitoring at each step of the trade facilitation process.

We take pride in having one of the most experienced and capable workforces that help us provide the best possible tailored solutions to our clients.

## VISION

---

We intend to be one of the leading supply chain & international trade solutions' provider in the world.

## MISSION

---

Is to promote global stability, growth, and prosperity through enhanced and more sustainable International Supply Chain & Trade Solutions that cater to the ever-evolving demands of our clients.

# OUR SERVICES

## FINANCE FLOW

World-class financial and insurance solutions, commodity exchange solutions, and currency exchange solutions.

## GOODS FLOW

Turnkey logistics, chartering, warehousing and value-added services, food and commodity processing, insurance and rate negotiation.

## INFORMATION FLOW

SaaS online B2B multi-vendor ecommerce platform for marketing and sales of manufacturers' products, purchasing supply chain services, and end-to-end order tracking and supply chain visibility.

# FINANCE FLOW

We empower global trade by offering our clients a full complement of financial instruments, exchanges and commercial insurance, including but not limited to:

## ACCESS TO CAPITAL NECESSARY TO FUND AND EXPAND OPERATIONS

Our extensive experience in the field allows us to provide immediate payment alternatives and suitable financing solutions to ease your worries about this aspect of trade.

## EXCHANGE MARKETS FOR 7/24 TRADING OF LIQUID COMMODITIES.

We provide commodity exchange solutions and a warehouse management system where clients can exchange goods, bid on them, and auction them off. The system governs contract production and determines market prices for commodities offered on the platform.

## COMMERCIAL INSURANCE PROTECTION AGAINST UNFORESEEN CIRCUMSTANCES TO MITIGATE RISK.

We provide recommendations over the best approach to potential markets. We help mitigate risk due to change in political situations and the concerned importing and exporting countries, which may severely affect import and export, trade and international business.

# GOODS FLOW

Single source solution for door-to-door import and export of goods, navigating the many complexities, laws and regulations associated with global trade. Our core service is the physical movement of goods – both import and export – to virtually every destination in the world. As a non-asset logistics provider, We are not driven by the need to fill our capacity first. Instead, we have the flexibility to tailor our client’s logistics service without compromising, assuring the most efficient solution. Among our many value offerings:

DRAYAGE TO AND FROM PORTS

NEGOTIATED TRUCKING, AIR AND CONTAINERSHIP CONTRACTED RATES

COVERAGE OF ALL LANES AND CAPACITY REQUIREMENTS

NEGOTIATED TRUCKING, AIR AND CONTAINERSHIP CONTRACTED RATES

VALUE-ADDED SERVICES, PACKAGING, KITTING AND PROCESSING

COLLATERAL MANAGEMENT AGREEMENTS (CMA)

CHARTERING SERVICES/BULK LOGISTICS

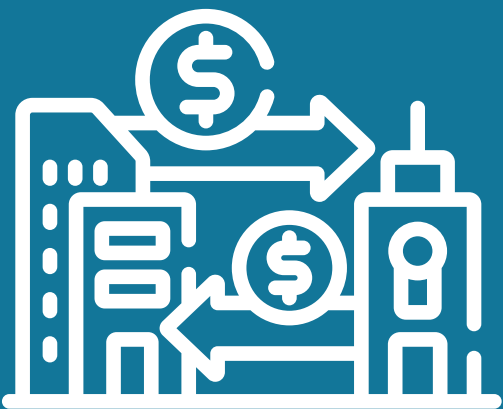

# INFORMATION FLOW

We provide an integrated information flow, It includes internal market research data mine, IQ International capabilities.

With the provision of services and solutions for international trade in an integrated manner for companies and establishments

We will give your business or company special accounts that enable you to manage the presentation and specifications of your products, receive and respond to customer inquiries, and agree on all aspects and documents related to trading at every step.

SAAS ECOMMERCE PLATFORM FOR TRADING, PRODUCT CATALOGING, VENDOR PROFILES, AND ROUTING GUIDE COMPLIANCE

EASILY CONFIGURE, MANAGE, AND EXPAND B2B STOREFRONTS

CONTROL TOWER VISIBILITY ACROSS ENTIRE SUPPLY CHAIN
